PART I TO BE COMPLETED BY ALL
List all Rhode Island licensed engineers in responsible charge who act on behalf of the firm. If you are a Sole Proprietorship, list your name.

For the purposes of this requirement, no person who is not an employee of the firm may be considered to be in responsible charge. The engineer in responsible charge shall work not less than twenty (20) hours per week for the firm, provided however that the Board might waive such requirement upon written application to the Board for good cause shown.

I hereby certify under oath that I acknowledge that I have the obligation of keeping the Board informed at all times in the event that I should terminate my employment and/or position of engineer in responsible charge. I further acknowledge that in the event that such a termination of responsibility occurs, that I must notify the board, in writing, within seven (7) days of the date of such termination and that otherwise, the Board shall be authorized to hold me responsible for any and all work performed by this firm.

Certificate of Authorization (COA)

TITLE 5

Businesses and Professions

CHAPTER 5-8

5-8-24. Sole proprietorship, partnership, limited liability partnership, corporate and limited liability company --

(a) The practice or offer to practice engineering as defined by this chapter by a sole proprietorship, partnership, limited liability partnership, corporation or limited liability company subsequently referred to as the "firm", through individuals is permitted; provided, that the individuals: (1) are in direct control of such practice; (2) exercise personal supervision of all personnel who act in behalf of the firm in professional and technical matters; and (3) are registered under the provisions of this chapter; and provided, further, that said firm has been issued a certificate of authorization by the board of engineers.

(b)(1) Within one year after enactment of this chapter every firm must obtain a certificate of authorization from the board and those individuals in direct control of the practice and who exercise direct supervision of all personnel who act in behalf of the firm in professional and technical matters must be registered with the board. The certificate of authorization is issued by the board upon satisfaction of the provisions of this chapter and the payment of a fee not to exceed one hundred twenty-five dollars (\$125.). This fee shall be waived if the firm consists of only one person who is the person in responsible charge.

(2) Every firm desiring a certificate of authorization must file with the Board an application for a certificate of authorization on a form to be provided by the Board. A separate form provided by the board is to be filed with each renewal of the certificate of authorization and within thirty (30) days of the time any information previously filed with the Board has changed, is no longer true or valid, or has been revised for any reason. If, in its judgment, the information contained on the application and renewal form is satisfactory and complete, the board will issue a certificate of authorization for the firm to practice engineering in this state.

(3) No firm that has been granted a certificate of authorization by the board shall be relieved of responsibility for modification or derivation of the certificate, unless the board has issued for the applicant a certificate of authorization or a letter indicating the eligibility of such applicant to receive the certificate. The firm applying shall supply the certificate or letter from the Board with its application for incorporation, organization or registration as a foreign corporation.
